

Becoming Agile

Purpose	The goal of this training course is to facilitate the move of people from traditional project environments to an Agile project environment. It will provide the knowledge of important Agile concepts, agile behaviors, the agile environment and important practices.
Duration	One day.
Intended Audience	<p>Suitable for Project managers, other project leaders and stakeholders, who wish to participate in Agile Projects, or apply for Agile Project roles with little or no experience.</p> <p>Also suitable for Project Management Institute (PMI)[®] credential holders who are looking to enhance their skills and gain PDU points toward their re-certification at the same time.</p>
Learning outcomes	<p>After completing this course, you will be able to::</p> <ul style="list-style-type: none"> • Identify the major differences between traditional (plan driven) and Agile project environments • Talk the Agile talk • Set up an Agile project environment • Identify important roles and responsibilities • Define the work as User Stories and be able to distribute that work across the project, a release and an iteration • Implement significant Agile tools and techniques that support the management/leadership of Agile projects
Learning environment	Face to face presentation with supporting practical exercises during the course.
Course Materials	Notes and exercises are provided.
Hours/PDU Information	The 7 hours of course effort can contribute to qualifying for Project Management Institute (PMI) [®] credentials or as 6 Technical Professional Development Units (PDUs) plus 1 Leadership PDU in maintaining a credential.
